## What is this product?

### Type

The Sub-fund is part of BA<sup>3</sup> STRATEGIC INVESTMENT SICAV fund. The Fund is an open-ended investment company with variable capital, incorporated in the Grand Duchy of Luxembourg. This Fund is authorised and supervised by the CSSF. The Depositary is Banco Inversis S.A.

### Term

The investment horizon is short term and should be at least 2 years.

### Objectives

The Sub-Fund is actively managed. The investment objective of the Sub-Fund is to seek to maximise total return, consistent with the preservation of capital and prudent investment management.

"Difesa" is linked to the need for "defense/protection" to which the sector responds, through an international bond-based asset allocation, diversified in terms of sources of income.

The investment strategy seeks to deploy the Sub-Investment Manager's total return investment process and philosophy. This process includes both top-down and bottom-up decision-making inputs to identify multiple sources of value, with an emphasis on securities with a shorter maturity. The Sub-Fund seeks to accomplish this objective through investing primarily in investment grade fixed income securities but will also have the following asset classes: The Sub-Fund invests at least 67% of its net asset value in a diversified portfolio of Pan-European denominated fixed income instruments of varying maturities; The Sub-Fund invests primarily in investment grade fixed income instruments, but may invest up to 20% of its net asset value in fixed income instruments that are rated lower than Baa3 by Moody's or lower than BBB- by S&P or equivalently rated by Fitch (or, if unrated, determined by the Sub-Investment Manager to be of comparable quality) subject to a minimum rating category of B3 by Moody's or B-S&P or equivalently rated by Fitch (or, if unrated, determined by the Sub-Investment Manager to be of comparable quality). The combined exposure of High-Yield and unrated will not exceed 20% of the net asset value; The Sub-Fund invests not more than 10% in investment grade Asset Backed Securities.

### Intended retail investor

Reserved for retail and institutional investors. The investment strategy corresponds for the investors with a low investment risk profile. Typical investors in the Fund will be investors who are looking to maximise total return and focus on capital preservation and are looking for a diversified exposure to primarily European fixed income markets, focusing on securities with a shorter duration, and who are willing to accept the risks and volatility associated with investing in such markets. Minimum Subscription: 100.000 EUR.

## What are the risks and what could I get in return?

### Risk Indicator:

The risk indicator assumes you keep the product for 2 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance-Scenarios:

<b>Favourable scenario</b>	<b>What you might get back after costs</b>	10,910 EUR	11,110 EUR
	Average return each year	9.1 %	5.4 %
<b>Worst case scenario</b>	<b>You could lose some or all of your investment</b>		

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between June 2021 and June 2022 (If you exit after 1 year), December 2020 and December 2022 (If you exit after 2 years).

Moderate scenario: This type of scenario occurred for an investment between August 2020 and August 2021 (If you exit after 1 year), May 2015 and May 2017 (If you exit after 2 years).

Favourable scenario: This type of scenario occurred for an investment between August 2018 and August 2019 (If you exit after 1 year), November 2018 and November 2020 (If you exit after 2 years).

## What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 2 years
Total costs	113 EUR	179 EUR
Annual cost impact (*)	1.2 %	0.9 %

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.3 % before costs and 1.4 % after costs.

## Composition of Costs

The table below shows the impact if you exit after 1 year.

### One-off costs upon entry or exit

Entry costs	0.5 % of the amount you pay in when entering this investment. This is the maximum amount you could pay and it could be less.	50 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR

### Ongoing costs (taken each year)

Management fees and other administrative or operating costs	0.5 % of the value of your investment per year.	50 EUR
Transaction costs	0.1 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	12 EUR

### Incidental costs taken under specific conditions

Performance fees	There is no performance fee for this product.	0 EUR
------------------	---	-------

## How long should I hold it and can I take money out early?

### Recommended holding period: 2 years

This fund has no minimum holding period, but has been created for short term investment. You should therefore be prepared to remain invested with your investment for at least 2 years. However, you can return your investment on any bank business day in Luxembourg.
