What is this product?

Type

This is an open ended UCITS fund.

Term

The fund is established for an unlimited period. In certain circumstances the fund may be unilaterally terminated in accordance with legal requirements.

Investment objective

The fund aims to provide capital growth and income in excess of the ICE BofA Euro Corporate Index after fees have been deducted over a three to five year period by investing in bonds denominated in euro issued by companies worldwide.

The fund is actively managed and invests at least two-thirds of its assets in bonds denominated in or hedged to euro issued by companies and other non-sovereign bond issuers, governments, government agencies, supranationals and companies worldwide.

The fund may invest up to 30% of its assets in bonds that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds); up to 20% of its assets in sovereign government bonds; up to 20% of its assets in asset-backed securities and mortgage-backed securities; and up to 20% of its assets in convertible bonds (including up to 10% of its assets in contingent convertible bonds).

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus).

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

The fund is valued with reference to the net asset value of the underlying assets.

Benchmark: The fund's performance should be assessed against its target benchmark being to exceed the ICE BofA Euro Corporate Index.

The fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. However, the fund will likely reflect certain features of the target benchmark (namely credit quality/duration or exposure to particular issuers). The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. Please see appendix III of the fund's prospectus for further details.

Currency: The sub-fund currency is EUR. The share class currency is EUR.

Dealing Frequency: You may redeem your investment upon demand. This fund deals daily.

Distribution Policy: This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Depositary: J.P. Morgan SE

The fund is intended for retail investors who have a basic investment knowledge and an ability to bear large short-term losses. This investment should form part of a varied investment portfolio. What happens if Schroder Investment Management (Europe) S.A. is unable to pay out?

The fund's assets are held in safekeeping by its depositary, so the fund's ability to pay out would not be affected by the insolvency of Schroder Investment Management (Europe) S.A. In addition, the fund's assets are segregated from the depositary's assets, which limits the risk of the fund suffering loss in case of default or insolvency of the depositary or someone acting on its behalf. However in the event of any loss, there is no compensation or guarantee scheme in place which may offset such loss.
