What is this product?

Type

The Sub-fund is part of BA³ STRATEGIC INVESTMENT SICAV fund. The Fund is an open-ended investment company with variable capital, incorporated in the Grand Duchy of Luxembourg. This Fund is authorised and supervised by the CSSF. The Depositary is Banco Inversis S.A.

Term

The recommended holding period is 5 years.

Objectives

The Sub-Fund is actively managed. The objective of the Sub-Fund is to achieve long-term capital growth by using asset allocation strategies and taking direct and indirect global exposure to equity, fixed income markets and/or other asset classes accepted by the Law of 2010 by mainly investing through UCITS/UCIs including ETFs.

"Crescita sostenibile" (Sustainable Growth) recalls the need for capital growth with a focus on a higher ESG profile in terms of assets allocation.

The Sub-Fund strives for financial return, while taking into account sustainability criteria. The asset allocation strategy is subject to the investment restrictions as set forth in this Prospectus. At the same time the Sub-Fund is promoting certain ESG (i.e. Environmental, Social and corporate Governance) characteristics and integrating sustainability risks in the investment process. Sustainability means striving to achieve economic success, while at the same time considering environmental, social and governance criteria.

The target exposure of equities and fixed income is balanced most of the time. The Sub-Fund will invest in equities and fixed income markets in a balanced approach with the flexibility to tilt allocations according to market conditions and within the defined ranges of 40-60% for each asset group, directly and indirectly.

The Sub-Fund can invest into eligible UCIs/UCITS, including UCIs/UCITS that are managed by an affiliated entity of the Sub-Investment Manager, that can invest in equities, bonds, deposits and other fixed income securities, money market investments, and other generally accepted asset classes. Exchange traded funds ("ETFs") outside of Robeco fund range are limited to 10% of the Sub-Fund's net assets.

Intended retail investor

Reserved for retail and institutional investors. This Sub-Fund is addressed to investors who intend to benefit from the global financial market trends with a medium level of volatility. The investment strategy corresponds for the investors with a medium investment risk profile. Minimum Subscription: 100.000 EUR.

What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 5 years
Total costs	196 EUR	919 EUR
Annual cost impact (*)	2.0 %	1.6 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.0 % before costs and 3.4 % after costs.

Composition of Costs

The table below shows the impact if you exit after 1 year.

One-off costs upon entry or exit
